

**Send “ftp.nse.no” credential request to support@nse.no**

When credentials are received:

- 1) To be able to download files from [ftp.nse.no](http://ftp.nse.no) you will need to use an FTP-client. If you don't have one installed already, you can download a free client from FileZilla (<https://filezilla-project.org>)
- 2) Use the settings below to connect to ftp.nse.no. Ensure to tick of «Use explicit FTP over TLS if available». In the FileZilla client this can be found under «File → Site Manager».
